REGIONAL ACTION PLAN FOR CHILD FRIENDLY DISTRICT DEVELOPMENT

PIG INTRODUCTION

A. Background

Children are an inseparable part of human survival. every child needs to get the widest opportunity to live, grow, develop, and participate optimally in accordance with human dignity, and receive protection from violence and discrimination.

In general, the problem of fulfilling rights and Child protection needs to receive optimal attention. Cases of violence against children and neglect that occur in various regions in Indonesia include an increase in the number of sexual crimes against children. violence experienced by children, almost occurs in all children's activity rooms, starting from family environment, school environment and environment children's play areas in community life.

The increasing number of violence against children make it an irony in the midst of increasingly strong awareness of regional policy makers, some groups of society are also starting to care, educators and staff

education is also starting to guard against bad possibilities what happens to students in the school environment and a small number of parents understand the importance of child protection. At the national level, policies and legislation National invitations are related to child protection as well getting better and more advanced. Commitment from government and stakeholders

The importance in implementing child protection is increasing real with the publication of the Law of the Republic of Indonesia Number 17 of 2016 concerning Determination of Government Regulations Replacement of Law Number 1 of 2016 concerning Second Amendment to Law Number 23 of 2002 Concerning Child Protection Becoming Law.

Child protection is all activities to guarantee, fulfill and protect children and their rights can live, grow and develop and participate actively optimally in accordance with human dignity and dignity as well receive protection from violence and discrimination. By therefore increasing welfare and protection against Children are very important, apart from that, protection of children is a child's human right. In this regard, efforts are made to improve the quality of resources

humans need to do this from an early age so that children can grow and develop naturally both physically, mentally, intellectual and spiritual so that children become the next generation nation and development will become quality human beings, healthy, accomplished, advanced and independent in various ways, and not neglecting the commandments of religion and humanity to become a person who believes and is devoted to God Almighty.

Children are God's inherent gift dignity as a whole human being, therefore children who are the next generation of the nation and its resources humans who really determine the success of development in the future it needs to be protected. Child is a very important potential, the next generation of the future future of the nation, determines the quality of Human Resources (HR) Indonesia will become the main pillar of national development, so the quality needs to be improved and obtained true protection from all the elements public. Quality Human Resources (HR) is not can be born naturally, if the child is allowed to grow and develop without protection, then they will become development burden because it will become a weak generation,

unproductive and uncreative, while there are more of them than a third of Indonesia's population.

Children in the social structure of Malay society are often abused call it "sibiranheart" which means very good and a very important position in bringing a good name as well family continuity. For the government, children are in context Child protection is currently a strategic effort to protect the survival of the nation and state in the future next time. Children are the very next generation determine the fate of the nation's life in the future, as heir who will continue the ideals of the struggle of the predecessor who is expected to be able to place Indonesia equal to other nations on the international stage.

The position of children has a very strategic role as stated in the 1945 Constitution especially in Article 28b paragraph (2), and Law Number 35 of 2014 concerning Amendments to Law Number 23 2002 concerning Child Protection as follows:

"Every child has the right to survive, grow and... develop and have the right to protection from violence and discrimination". (1945 Constitution Article 28B Paragraph (2)).

"Every child has the right to live, grow, develop, and participate appropriately in accordance with dignity and human dignity, and receive protection from violence and discrimination" (Article 4 of Law Number 35 2014 concerning Amendments to Law Number 23 2002 concerning Child Protection).

To ensure the implementation of these commitments, The government established Law Number 23 of 2002 concerning Child Protection as has been done several times last amended by Law Number 17 of 2016 concerning the Determination of Government Regulations in Lieu of Laws Law Number 1 of 2016 concerning the Second Amendment to Law Number 23 of 2002 concerning Child Protection Becomes a Law, which states that the state, central government, and regional governments are obliged and responsible for respecting the fulfillment of children's rights without

differentiate between ethnicity, religion, race, class, gender, ethnicity, language, social status, economic status, age, and physical condition and/or mental. According to the provisions of Article 21 paragraph (4) and paragraph (5) Law Number 35 of 2014 concerning Amendments to Law Number 23 of 2002 concerning Child Protection states that regional governments are obliged and responsible for implementing and supporting national policies in the implementation of Child Protection in regions through the development of Child Friendly Districts (KLA).

Child Friendly Districts (KLA) are districts with development system that guarantees the fulfillment of children's rights and special protection for children carried out in a planned manner, comprehensive and sustainable. The concept of Child Friendly Districts (KLA) was formed to adapt the Indonesian government implementation system, namely through regional autonomy, with The ultimate goal of Indonesia which is worthy of children (idols) is hoped to be achieved achieved by 2030. This is also a form of contribution Indonesia for the global community in line with commitments Indonesia in supporting the world fit for children movement for children).

Based on the considerations above, the Government Sukoharjo Regency prepares a Regional Action Plan Child Friendly District Development (RAD-KLA) which contains instructions and directions for realizing a Child Friendly Regency (KLA) in the Region, which is an embodiment of the implementation of Regional Regulations on Child Friendly Districts Sukoharjo.

CHILD FRIENDLY DISTRICT ACHIEVEMENT POLICY

A. Principle

Principles of Child Friendly Regency Policy (KLA) were prepared based on the basic principles of children's rights according to the Convention on Rights Children's Rights and bureaucratic reform rules are as follows:

1. Non-discrimination;
does not differentiate between ethnicity, race, religion, gender, language, political understanding, national origin, economic status, physical condition or the child's psychology, or other factors;
2. The best interests of the child;
make children the main consideration in everything policy making and program development and activity;
3. The right to life, survival and development
child;
guarantee the right to life, survival, and maximum possible child development;
4. Respect for children's views;
acknowledge and ensure that each child is provided with opportunity to express his views publicly free, independent, and polite towards everything influence him, be given weight, and be considered deeply decision-making; And
5. Good governance;
transparency, accountability, participation, openness of information, and supremacy of law.

B. Policy Direction

Formulation of comprehensive planning for Regency Policy Child Friendly (KLA) contains 6 (six) policy directions, namely:

1. Optimizing potential in strengthening institutions
Child Friendly District (KLA);
2. realizing the fulfillment of civil rights and freedoms;
3. strengthening the family environment and alternative care;
4. ensure the fulfillment of basic health rights and
child welfare;

5. prioritize the fulfillment of children's rights to education, use of free time and cultural activities; And
6. ensure services for children who need them special protection.

C. Strategy

Policy realization is implemented through 3 (three) main strategies, namely:

1. increasing human resources and strengthening roles central government and local government institutions prevention and service provision.
2. role enhancement:
 - a. natural person;
 - b. child protection Institution;
 - c. social welfare institutions;
 - d. community organizations;
 - e. educational institutions;
 - f. mass media;
 - g. business world; And
 - h. child.

through advocacy, outreach, facilitation, dissemination and education.
3. improving facilities and infrastructure that support fulfillment children's rights and special protection of children.

Apart from that, there is also the development of Child Friendly Districts (KLA). must consider children's opinions through children's forums.

In general, the development of Child Friendly Districts (KLA)

There are at least 5 (five) main steps as follows:

1. Political Commitment;

Political commitment is support from policy makers to agree

making Sukoharjo Regency a Viable Regency

Children (KLA). Political commitment from policy makers areas can be:

- a. declaration or open declaration towards the Regency Child Friendly (KLA); or
- b. the issuance of various regional public policies that are strategic and legally strong, with the aim of ensuring

fulfillment of children's rights and child protection efforts such as Regional Regulations, Sukoharjo Regent Regulations, Decree, Sukoharjo Regent Circular, and Instructions from the Regent of Sukoharjo.

Development of a Child Friendly District (KLA) without it political support from regional heads and takers regional policies are difficult to implement.

2. Establishment of a Child Friendly Regency Task Force

The next step is to form a Task Force Child Friendly District, which is an institution coordinating committee consisting of representatives from the executive, legislative, judicial, child representatives, business world, religious leaders, and society. Child Friendly Regency Task Force tasked and responsible for initiating and overseeing the development of the Sukoharjo Regency Child Friendly District in the fields of policy, basic data and programs. As for detailed duties and functions of the Child Friendly Regency Task Force as follows:

- a. coordinate implementation policy And development of Child Friendly Districts (KLA);
- b. determine the tasks of the Task Force members;
- c. carry out outreach, advocacy and information communication and child friendly district (KLA) policy education;
- d. collect baseline data;
- e. carry out needs analysis based on data base;
- f. carry out basic data dissemination;
- g. determine the focus and priorities of the program realizing a Child Friendly District (KLA), which is adapted to regional potential (main problems, needs, and resources);
- h. prepare a Regional Action Plan for District Development Child Friendly (RAD-KLA) for 5 (five) years or appropriate regional needs, as well as determining work mechanisms;
- i. implement Regulation Area about Child protection; And

- j. carry out monitoring, evaluation and reporting at least 1 (once a year).

In developing Child Friendly Districts (KLA), the formation of a task force became important and was ratified through the Regent's Decree. Through the formation of and ratification of the Child Friendly Regency Task Force then implementation of the Child Friendly District Development Regional Action Plan (RAD-KLA) can proceed. Ministerial regulation Women's Empowerment and Child Protection Number 13 2011 concerning Regency/City Development Guidelines Child Worthy has provided membership and role guidelines from the Task Force. Roles listed in the Policy efforts are made in accordance with the duties and functions of the Device areas so that coordination can take place.

The Children's Forum as a forum for children's participation is also a part from the Child Friendly Regency Task Force. However in order to realize children's participation, then that The most important thing is that this forum must play a role in the decision making process decision.

3. Basic Data Collection.

Basic data is a collection of data that can be provides an overview of the situation and conditions for fulfilling children's rights and protection in Sukoharjo Regency. Data collection The basis should follow a pattern or systematicity presentation according to the order in the indicators Child Friendly District (KLA). Collection of basic data useful for:

- a. mapping the problems of fulfilling rights and child protection across fields and sectors; b. map the involvement of responsibility holders within fulfillment of children's rights and protection;
- c. help determine program direction and priorities fulfillment of children's rights and protection;
- d. help determine pilot locations for development of Child Friendly areas; And
- e. assist in the preparation of District evaluation reports Child Friendly (KLA).

Basic data should be disaggregated by gender, child's age, and location (district or village/kelurahan) where the child lives. By sorting data on this basis will make it easier for policy makers, development policies and implementers to develop planning, implementing programs and monitoring implementation of activities on target. Basic data can be obtained from the relevant Regional Apparatus, Central Statistics Agency, research results, etc. In collecting and analyzing basic data, the task force can work together with universities or other research institutions.

In developing Child Friendly Districts (KLA), data collection and analysis of the child's situation is important for provide an up-to-date picture of the situation and conditions of children so that work programs can be prepared to fulfill children's rights will be more focused and measurable. The data required is not only survey results such as the Central Bureau of Statistics or data sectoral but also data and information support from various parties such as data from studies or research from experts and academics, from practitioners such as Non-Governmental Organizations (NGOs), the business world and other professional circles. No less important are data, information, views and perceptions of children, etc. The Children's Forum will be very helpful in providing a comprehensive picture of the situation for fulfilling rights and protection of children who will be beneficiaries of the program.

Disaggregated data is needed for District indicators Child Friendly (KLA) and a factor that needs to be considered in collecting this data is the involvement of children in the process of data collection. This also provides opportunities for children to play a role in solving children's problems.

4. Preparation of District Development Regional Action Plans Child Friendly (RAD-KLA).

Regional Action Plan for Decent District Development Children (RAD-KLA) serves as an important reference for develop Child Friendly Districts systematically,

directed and on target. In preparing the Action Plan Child Friendly Regency Development Area (RAD-KLA), then should be task forces and parties related consider and adapt it to the Plan National Medium Term Development (RPJMN), Plan Regional Medium Term Development (RPJMD), Plan Regional Strategic (Renstrada) Vision, Mission, Policies, Programs and Sukoharjo Regency activities for Regional Action Plan Child Friendly District Development (RAD-KLA) no “overlaps” with various existing regional plans exists or is already running.

Preparation of Regional Development Action Plans

Child Friendly Districts (RAD-KLA) does not mean having to create new programs because of the Regional Development Action Plan Child Friendly Districts (RAD-KLA) can be a integration or perhaps a recapitulation of various programs and activity plans for each Regional Apparatus concerned no matter how small the contribution that can be made for the fulfillment of children's rights and protection. The main thing is need to be taken into account when preparing the Regional Action Plan Development of Child Friendly Districts (RAD-KLA) is an effort to fulfill children's rights. In addition, the Regional Action Plan for Child Friendly District Development (RAD-KLA) must be consider and of course utilize everything local, social, cultural and economic potential as well as various products local excellence. In accordance with the principle of child participation in the Convention on the Rights of the Child, then it is in the drafting process Regional Action Plan for Child Friendly District Development (RAD-KLA), children or children's forums need to be involved.

Child Friendly Regency (KLA) development strategy

It needs to involve various sectors and various stakeholders efforts for child growth and development and protection. Support from public companies (BUMN, BUMD) and other private sectors in terms of funds, skills training, and so on needed to support successful implementation Regional Action Plan for Child Friendly District Development (RAD-KLA).

5. Implementation and Resource Mobilization

Regional Action Plan for Child Friendly District Development (RAD-KLA) must be implemented with the support of the takers policies and related parties, so that the Regency is Child Friendly (KLA) can be developed according to plan and can be divided into several years of implementation according to the agreement of the Task Force Team Child Friendly District. All available resources are necessary utilized optimally.

Principles for implementing Regional Development Action Plans Child Friendly Districts (RAD-KLA) are:

- a. implementation of integrated regional development programs
 - across fields and sectors, developing an integrative and holistic approach that is oriented towards
 - fulfillment of children's rights and protection on an ongoing basis;
- b. utilization of various regional resources starting from the source
 - regional human, natural, economic, social and cultural resources; And
- c. involvement of various parties ranging from local government,
 - society, business world, mass media, academic circles, institutions and professional ties and parties
 - other parties involved in the best interests of the child.

MONITORING, EVALUATION AND REPORTING

A. Monitoring Mechanism

Monitoring of District Development Regional Action Plans

Child Friendly (RAD-KLA) is needed to provide input for the implementation process to achieve better results.

Monitoring the Regional Action Plan for the Development of Feasible Districts Children (RAD-KLA) can be done through:

1. reporting monitoring results;
2. meeting; and/or
3. field visits.

B. Evaluation Mechanism

Meanwhile, an evaluation is carried out to determine achievements target indicators in a certain predetermined period in the District Development Regional Action Plan document Child Friendly (RAD-KLA), for example semester or annual or at any time when necessary. Evaluation can be done via the same mechanism and can involve external parties. Evaluations are carried out at the end of each year.

C. Reporting Mechanism

Reports regarding the process and achievements of developing Child Friendly Districts (KLA) need to be prepared regularly periodically (once a year). A good report will be the basis for follow-up planning for the development of the Worthy Regency Children (KLA) on an ongoing basis.

Report on the implementation of the Regional Development Action Plan Child Friendly Regency (RAD-KLA) needs to be conveyed to a higher level to find out the results of activities and prepare policies for the following year. Plan implementation report Regional Action for Child Friendly District Development (RAD-KLA) conveyed by the Regent of Sukoharjo to the Governor of Central Java. Reporting on the implementation of the Regional Development Action Plan Child Friendly Regency (RAD-KLA) is carried out once every 1 (one) time end of year.

D. Implementation Time

Time for Implementation of the Regional Development Action Plan
Child Friendly District (RAD-KLA) Sukoharjo Regency is starting
2023 to 2026.

CLOSING

Regional Action Plan for Child Friendly District Development (RAD KLA) Sukoharjo Regency is a benchmark for target achievement every year which must be understood by each person responsible for the indicators, and is an important part of the Decent Regency policy

Children are a reference for local governments in implementation

Child Friendly Regency (KLA) which needs to be done through advocacy, socialization, facilitation, dissemination and education to all parties involved work for and with children.
